

PTVA's MULUND COLLEGE OF COMMERCE (AUTONOMOUS)			
Programme: B.Sc. Information Technology		Class: TY	Semester: V (AUTO)
Exam: CIA (ATKT)	Name of the Course: ASP .NET Core		
Date of Exam: 28/11/2025	Marks: 20	Time: 40 Minutes	Autonomous
Instructions: 1) Make suitable assumptions wherever necessary and state the assumptions made. 2) Draw neat labelled diagrams wherever necessary.			

Q Attempt any four (5 marks each)

1. Explain the concept of unit testing in ASP.NET Core. How does it improve software quality?
2. Discuss the process of building a shopping cart in ASP.NET Core. What challenges are commonly faced when adding navigation controls?
3. What are the advanced routing features available in ASP.NET Core? Explain how service location and tight coupling are related to routing.
4. How can a web service be created using a controller in ASP.NET Core? Discuss the steps involved in building and improving this web service.
5. Discuss the process of creating and using a view component in an ASP.NET Core application. What are the key steps involved?
6. What are RESTful web services and how do they differ from traditional web services? Explain their significance in modern application development.
