

PTVA's MULUND COLLEGE OF COMMERCE (AUTONOMOUS)			
Programme: B.Sc. Information Technology		Class: TY	Semester: V (AUTO)
Exam: CIA (ATKT)	Name of the Course: DevOps		
Date of Exam: 27/11/2025	Marks: 20	Time: 40 Minutes	Autonomous
Instructions: 1) Make suitable assumptions wherever necessary and state the assumptions made. 2) Draw neat labelled diagrams wherever necessary.			

Q Attempt any four (5 marks each)

1. Explain how Development (Dev) and Operations (Ops) teams need to improve on how to operate and align based on Dev, Ops and Business View.
2. State how monolithic and microservice application architectures differ and what operational challenges are associated with monolithic designs that microservices can address to offer significant business benefits.
3. How does API management embody the principles of DevOps through the management of the API lifecycle?
4. What steps should be taken to determine the value proposition delivered by the line of business for the various problems addressed across each customer segment?
5. Find out the role of 'Enabling Experimentation' as a core theme in driving innovation. How it supports the development and validation of new ideas within an organization.
6. Discuss the compelling reasons for taking action to lead DevOps adoption in the enterprise and how these reasons can drive successful implementation and support organizational change.
