

PTVA's MULUND COLLEGE OF COMMERCE (AUTONOMOUS)		
Programme: B.Sc. Information Technology	Class: TY	Semester: V
Exam: CIA	Name of the Course: Internet of Things	
Date of Exam: 30/07/2025	Marks: 20	Time: 40 Minutes
Instructions: 1) Make suitable assumptions wherever necessary and state the assumptions made. 2) Draw neat labelled diagrams wherever necessary.		

Q Attempt any four (5 marks each)

1. List and briefly describe the core principles of calm technology.
2. Define and explain Internet of Things and Ubiquitous Computing.
3. Identify a scenario where a static IP address is preferable over a dynamic one. Justify your choice based on the definition and behavior of static IPs.
4. Distinguish between TCP and UDP.
5. Evaluate how balancing platform familiarity, prototyping expenses, and usability impacts IoT product development.
6. Design a labeled diagram that shows the structure of a domain name, including TLD, second-level domain, and subdomain. Use a custom example to demonstrate DNS hierarchy.
